

The launch of the new Bloemfontein office was held in July.

SAFINTRA OPENS OFFICES IN BLOEMFONTEIN AND NAMIBIA

Metal roofing manufacturer, Safintra, recently opened two new sales offices in Southern Africa. The new offices, situated in Bloemfontein and Windhoek, intend to help the company offer localised support to its customers wherever they might be.

Besides providing sales and technical support to customers in the Free State, the Bloemfontein office will also support customers in the Northern Cape. The Bloemfontein office boasts a showroom area that will be used by architects, engineers and contractors as a reference centre for product specification information and specialist installation advice.

The Safintra Group also has operations in ten other countries in SADC, Southern and Eastern Africa, including Mozambique, Zambia, Malawi, Angola, Tanzania, Kenya, Uganda, Ethiopia, Rwanda and Burundi. [WR](#)

SAFLOK 700[®]
concealed fix roofing

LOCKS DOWN YOUR ROOF

The most advanced wide-coverage concealed fix system on the market

- Cover width of 700mm per sheet for fast, cost effective installation
- Re-engineered clips ensure superb sheet engagement at every rib, and total stability at the male-female lap
- Deep pans for excellent water run off, even at 2 degree pitch
- Saflok components include detailing for high wind loads and structurally challenging installations
- Can be rolled on-site in lengths up to 120 metres

South African operations:- Johannesburg, Cape Town, Durban, Port Elizabeth, Polokwane, Nelspruit & Bloemfontein. www.safintra.co.za

Additional operations in Africa include:- Namibia, Botswana, Mozambique, Malawi, Zambia, Angola, Tanzania & Kenya, amongst others. www.safintra.com
